

Pakai Industries Berhad (196901000011)

COMPANY GROUP PROFILE 2023

About Us | Brief Overview

Pakai Industries Berhad (Pakai) 196901000011 is a well established Malaysian manufacturer of quality kitchen and bathroom products. With more than 50 years of experience, Pakai is a well known house hold brand name for plastic cisterns since the 1960s. We have also been exporting to many countries around the world. Pakai produces products under its own brand as well as OEM brands. In addition, Pakai also manufactures products under OEM for a number of ceramic sanitary ware manufacturers.

Export is an important revenue generator for our company. In the past few years, our export business has been increasing significantly as more of our products are being sold around the world. We are committed to expanding the sales of our export business by both increasing the product range as well as increasing the channels of sales while maintaining our Export Quality.

Our Values | In Our Company

Deliver Awesome Customer Experience

Awesome customer experience mean do whatever it takes to make your customer happy provided it is fair.

Do What You Say, Say What You Do

Speak truthfully without skewing the information to your advantage. Deliver whatever that had been promised. Reliable is the key.

Be a Team

Teamwork is not all about interaction with other team member, it is also relates to our role & contribution in helping company to achieve the vision, mission and USP.

Be Open

Open your heart to comment & criticism, take it positively as it is the magic ingredient for personal growth. Open your mind to new ideas, there is always a better one.

Be Accountable

Take up the responsibility and accept the consequences when things went wrong instead of giving excuses.
